Dr. Carolyn C. Goren
P.O. Box 7189
Missoula MT 59807-7189

Dear Dr. Goren:

Here is my semiannual report on blood pressure.

I took my blood pressure at about 9:00 AM on July 18 and got 129/79. This is the average of four readings: 136/80, 122/80, 130/76, and 128/80. Since the systolic readings were erratic, I took the pressure again at 10:30 AM on July 18 and got a consistent reading, approximately the same on three successive trials, of 128/78.

Sincerely yours,

Theodore J. Kaczynski
